

THE ONE AND ONLY IVAN

Dear Parents:

Our class is wrapping up a wonderful reading of the novel "The One and Only Ivan" by K. Applegate. As a culminating project, students have been assigned to create a multimedia presentation. To do this, I have requested that they use www.blendspace.com. An account has been set up and your child will have an opportunity to work online at school, but they are also encouraged to utilize time at home to make their projects creative and original. To meet the project requirements, students must use blendspace as a placeholder for all of their written and media work, but the types of work they submit is their choice. At least 4 different pieces must be included but students may submit more. All drawings or paintings can be scanned in at school and air-dropped to student desktops. Other pieces, such as a concrete model, will simply be noted on their blendspace through a picture or text that is typed in. Creativity is key! Students should show their comprehension of the novel through various modes and at least one personal connection. Some ideas are listed below, but the project is not limited to this list. The final project is due on Friday, May 23rd. Students will present to the class the following week. If you have any questions, please email or text me.
